

## Wedding Locations in Glacier National Park

### Some things to know:

- Below is a list of all locations at which Glacier National Park may issue Special Use Permits to hold wedding/elopement ceremonies within the park. These are the only locations which will be considered. If a location is not on this list it will not be considered for a Special Use Permit and weddings/elopements may not be held at that location. A permit is required for any and all wedding ceremonies, exchanging of vows, elopements, etc. that occur within the park regardless of time of year or group size. Therefore, no event or ceremony can take place at any location not listed here at any time.
- Limitations vary by location. Please read through the information below carefully.
- All participant and vehicles numbers must include all individuals involved with or attending the permitted event and related vehicles. This includes but is not limited to wedding party, all guests/witnesses (regardless of age), and all third-party vendors including officiants and photographers. Going over limits listed on this document or permit is strictly prohibited.
- Special Use Permits are legal, binding documents. As a specially permitted event, all ceremonies/events will be monitored by a National Park Service employee. Permit holders and participants should anticipate being contacted by a park ranger who will be checking to ensure all terms and conditions of the permit are being adhered to. Permit holders must be prepared to present a signed copy of their permit and to identify all individuals and vehicles involved with the permitted event. If the permit holder is found to be in violation of any of the terms and conditions of the permit, the event may be delayed, disrupted, or cancelled. Permit holders must comply with all requests of any NPS employee. Violating the terms or conditions of a permit is considered a Class C Federal Misdemeanor and can result in fines of up to \$5,000 and up to six months in jail.
- Please remember to follow Leave No Trace Principals at all locations. Use designated restrooms and trash receptacles where available. Pack it out when such facilities are not available. All food storage regulations are strictly enforced.

- Please remember that the spreading/scattering/spraying of any item, whether edible or not, is strictly prohibited. This includes but is not limited to flower petals (both real and artificial), rice, birdseed, bubbles, and champagne. These rules still apply during all photography sessions that may or may not take place within the bounds of a permit.
- A permit does not guarantee entrance to the park or parking spaces once inside. All parking remains first-come, first-served. Reserving or saving spaces is prohibited. Park entrances and roads may be closed at any time due to weather, emergencies, congestion, or construction. It is the responsibility of the permit holder to monitor park media for closures that may impact their event and to contact the Office of Special Park Uses if a closure will impact a permit. Changes to permits must be approved in writing by an authorized official prior to the event. Changes will never be granted retroactively. Holding a ceremony or event outside of the parameters listed on the original permit without prior written approval from an authorized official is considered a violation of the terms and conditions of a permit even if access is restricted due to an emergency or unanticipated closure.

### Symbol Key

This symbol indicates a location that is wheelchair accessible. Please keep in mind some areas may be unpaved and mud or loose gravel or dirt may still be present.

This symbol indicates a location at which pets are allowed. Pets are allowed only in developed areas. All pets MUST be kept on a leash that is 6ft in length or shorter, be under the physical control of an adult at all times, and are never to be tied to any object or left unattended. Please remember to treat all pet food/treats the same as human food regarding food storage. Do not leave pets in vehicles. Service animals are allowed at all locations. All the above rules still apply. Please remember that emotional support/therapy/companion animals do not qualify as service animals.

This symbol indicates a location at which there are no facilities such as restrooms or trash cans. Please follow Leave No Trace Principals. Pack out all trash (including fruit peels and other biodegradable items). Human waste (both solid and liquid) must be deposited at least 200 feet from any water source, trail, or developed area. Use catholes for solid waste. Pack out all toilet paper.
